TUNING KNOBS

Order data on pages 200-203

OKW
GEHÄUSE
SYSTEME

LARGE SELECTION OF TYPES

THE PRODUCT

The TUNING KNOB range covers many different fields of application.

Choose the TUNING KNOB whose size and design meets your own special requirements.

Thanks to the large selection of types, you have the opportunity of giving your appliances their own individual "face".

YOUR ADVANTAGE

For the varying applications involved we offer a range of tuning knobs in thermoplastic as well as knobs in thermosetting plastic for high temperature resistance (Duroplast).

Different designs and sizes – practical, with a good grip.

High-grade metal effects thanks to aluminum cap or insert embellisher. The color and styling of the front panel thus form a unified whole.

Versions with markings – advantageous for adjusting and indicating.

Fastenings

According to knob type

- A) Metal bush, metal ring or square-head nut and cupped point threaded studs with securing recess.
- B) Cupped point threaded studs with securing recess. Thread in plastic jacket (low cost knob version).
- C) Circular spring (tuning knobs with profile boreholes for axes 0.236"/0.181").
